## FOR USE

- 1 **90° chair**  
The profile of the chair consists of four mutually orthogonal bars, each of them longer than the adjoining bar. The armchair is achieved through the addition of two additional orthogonal bars, one of them an extension of the front leg.

## NEO DESIGN

Rodrigo Vairinhos

- 2 **V chair**  
The design of this beechwood, lacquer-finished chair is a direct response to the demands of the production line.

## JASPER MORRISON

- 3 **Basel chair**  
Designed for Vitra, this wooden chair features a seat and back in dyed-through plastic.

1

**JASPER MORRISON**

**1 Cork chair**

Produced in a limited edition of 25, Morrison's supremely simplified seat is made from wine bottle corks.

**NEO DESIGN**

**Rodrigo Vairinhos**

**2 Corky Lips chair**

This designer uses sensual, pleasing shapes to promote the use of organic and recyclable materials. Corky Lips are made from recyclable foam upholstered with cork leather. The manufacturing process produces almost no waste or toxic emissions.

**BRAUN**

**in lights**  
suspension light series Lingor is manufactured using a traditional metal enameled process – and phosphorescent enamel. The pieces have modern, sustainable characteristics and suited to various lighting needs from lighting to diffusing light.

**DESIGN**

rodrigo Vairinhos  
**Light Collection**  
set of four geometrically refined ring spot lamps made in ceramic, available in black and/or white with gloss surfaces.
