V Chair

The V Chair, designed by Rodrigo Vairinhos, adequately manifests the modernity and esthetic its maker has been pursuing. Inspired by the construction pattern of traditional bridges and towers—a mesh of Vs—and with style in a lively yellow, V Chair is ideal for both indoor and outdoor use.

Vintage Light

This ceiling lamp is able to arouse the imagination of its beholders; it looks like a falling curtain and a velvet tablecloth; its color of "absinthe green" reminds us of the impressionist artists in the Victorian period such as Vincent Van Gogh and Paul Cézanne. Made in London by Moooi, the Vintage Light is made from free-blown glass with a lavish fringe cascade and, above all, is finished in style.
