POP

POP

suspension lamp

design by Rodrigo Vairinhos

This lighting literally pops up like a glossy bubble in your room- POP is an amazing lighting solution designed in smooth and glossy ceramic open up your room for harmony.

POP white, design by Rodrigo Vairinhos

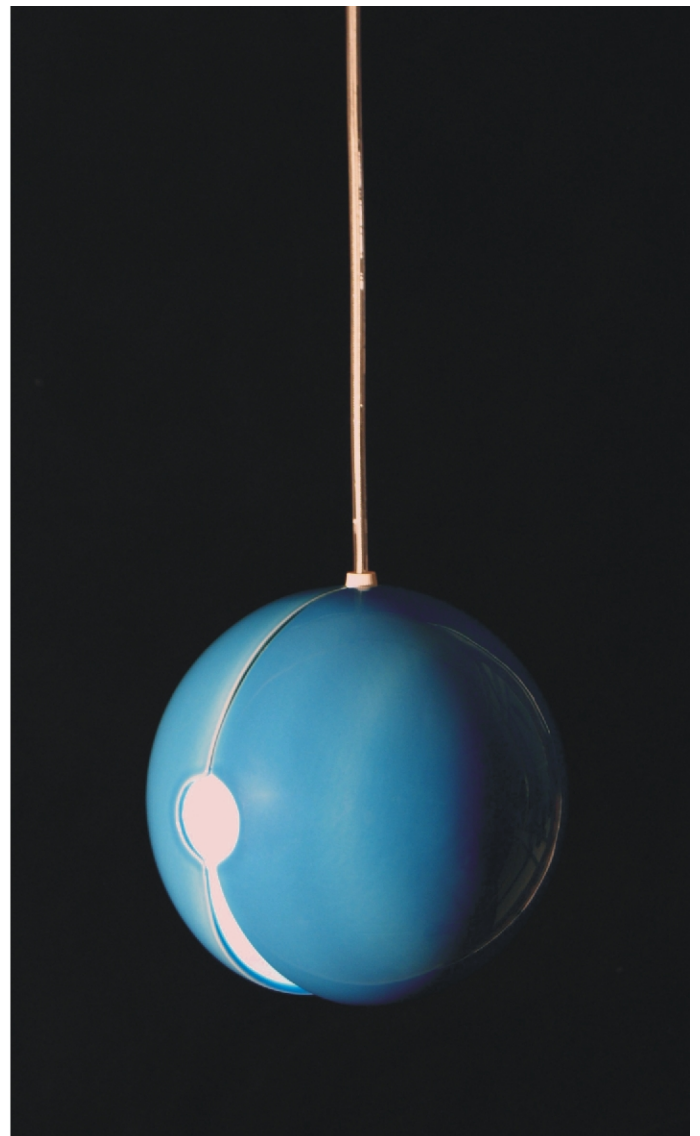

POP blue, design by Rodrigo Vairinhos

Its characteristic bubbly shape brightens up your room and casting shadows for a smooth atmosphere.

POP shows how important it was to the designer to push the boundaries of the use of ceramic popping up a new window of lighting design. It highlights how it's worth working with the material and its fascinating potential.

At first sight POP looks like a simple fixture but indeed this creation defies the material since it pops away from conventions making use of a technology less explored in combination with ceramic.

POP yellow, design by Rodrigo Vairinhos

Its two semi globes are melting to one by magnets connecting both parts and supporting the weight of the material. It's magic!

This object is lively and extremely playful and it's for sure a highlight on any decoration solution.

POP is delicate, elegant and neutral; it hovers in your room in the four colours of the rainbow.

POP your room up into the limelight.
