BONSAI

Vase

design by Rodrigo Vairinhos

The vase Bonsai is the result of a reinvented concept, inspired on the original millenarian horticultural bonsai philosophy where the vase was considered the “frame”, and it shouldn't be putted upon the “masterpiece” that is the flower.

This solitaire vase of sharpen appearance seeks a high aesthetic perfection that reminds the traditional bonsai vase itself.

The neutral white colour chosen for the glaze is also an important element to play with possible arrangements, thinking that only a flower with colour allows a vase of vivid colours.

It is difficult to resist to the fascination of this vase. it's like having a piece of nature and beauty in the palm of your hands.
