The designer have added to its clean and sleek creation a powerful element that was still little explored in this field. He imagined a minimal piece, with a precise functionality that would serve as well as a canvas to original designed graphics.

The combination of a well designed silhouette and the addition of a dynamic graphic, a smoke cloud in the center of this fixture, puts this astounding lamp apart from any conventional lighting form.

Distinct and mystical, reflecting the illusion of smoke around the lighting source/lighting bulb.
