SNAP

Side table

design by Rodrigo Vairinhos

SNAP is a highly elegant and functional small piece of furniture, an occasional table collection in two different sizes.

SNAP, SNAP_01, design by Rodrigo Vairinhos

SNAP means cracked lines... a notion of fragility.

The structure of this piece tended to a geometric direction full of contrast and expression by the jagged edges of the legs and the round top, creating what the designer called “a graphic zigzag and a structural light appearance all the way”.

The materials mdf and cork fulfil the entire Design. The material mix is an inspiration to the senses, from the aesthetics to the touch.

The Designer “kept it conservative” when it came to colour. He meant once again to create a “shocking” contrast... classic black lacquer for the structure, like a piece of wood that have been burned, contrasting with the organic lively and light cork tones.
